

EX-2000

BREWER DE-STAINING FLUID FOR DRINKS VENDING MACHINES

EX-2000 Brewer Cleaner is a liquid cleaning product specifically designed for the cleaning and de-staining of fresh brew units in hot drinks vending machines, and other food and drinks hygiene applications.

EX 2000 is concentrated, highly effective, and extremely economical. It is safe to use on stainless steel, aluminium, and plastic materials of construction, as used in drinks vending machines.

The product is packed for convenience and safety in 1 litre polythene bottles. The cap provides a measured 10ml dose.

DIRECTIONS FOR USE IN FRESH BREW UNITS: Add 1 part EX-2000 for each 15 parts water (about 1 capful) to the brew unit before operating the cleaning cycle. Allow to work for at least 10 minutes before starting the flush cycle.

STORAGE AND HANDLING:

Keep tightly closed in original containers. Keep away from sunlight and extreme temperatures.

COSHH Data: An EC safety data sheet (MSDS) providing additional information is available on request.

Packaging Sizes:

12 x 1 litre flip-top bottles

BENEFITS:

- Designed specifically for cleaning and destaining fresh-brew units in hot drinks vending machines
- Highly concentrated
- Economical in use
- Handy pack size for operatives
- Safe on stainless steel, aluminium and plastics
- Versatile
