

STOKO PRELABO®

Skin protectant which facilitates the removal of dry and oil based contamination from the skin. Improves the grip of your hands.

Description

STOKO PRELABO® is a water-soluble skin protectant which makes it easier for you to cleanse your skin after working with very stubborn, water-insoluble, dry and oil-based types of contamination.

The emulsifying agents contained in STOKO PRELABO® not only have superior skin compatibility; they also help to prevent dirt particles from clinging to the skin. Provided it is systematically used both before and during work, STOKO PRELABO® can significantly reduce the amount of hand cleanser to clean the skin. The product is kind to the skin and makes skin cleansing a quick and easy procedure, eliminating the need to use aggressive skin cleansers.

Areas of Application

When working with stubborn, water-insoluble contamination such as oils, lacquers, graphite, metallic dust, adhesives and when working with dry dusts.

STOKO PRELABO® is therefore ideal for use in maintenance workshops as well as the agricultural and metal-working industry.

For use on the hands and forearms.

NB: Using skin protectants does not mean the prescribed measures no longer need to be taken.

Features and Benefits

Features	Benefits
with soil-suspending emulsifiers	helps to stop stubborn types of dirt clinging to your skin -> you can swiftly and gently clean your skin -> you can save on the cleansers needed -> cares for your skin
with synthetic tanning agent EUCORIOL®	strengthens your skin and improves grip: materials, equipment and tools are held firmly in your hands
with allantoin and glycerine	enhances skin moisture
contains high-quality ingredients	good skin compatibility minimises the risk of skin incompatibility
silicone-free and non-oily	no imperfections in paintwork
pigment-free	no adverse effects when vulcanising rubber ¹⁾

... keeping working skin healthy.

STOKO®
 SkinCare

Instructions for Use

Thoroughly cleanse and dry your skin before starting any work, which means after each break as well. Then carefully rub STOKO PRELABO® on to the areas of skin at risk, including between the fingers and around the fingernails.

To achieve the best results, the dirt should first of all be loosened using just a little water prior to actual cleansing, and the skin then thoroughly rinsed under running water.

STOKO PRELABO® should always be used before starting work and after any lengthy breaks.

STOKO PRELABO® must be applied again after heavy sweating or any skin contact with water.

Product Description

White, perfumed, silicone-free, non-oily ointment; water soluble.

Qualitative Composition*

AQUA (WATER), STEARIC ACID, LAURETH-5, GLYCERIN, PROPYLENE GLYCOL, SODIUM SILICATE, POTASSIUM STEARATE, SODIUM PHOSPHATE, SODIUM BISCHLORO-PHENYLSULFAMINE (EUCORIOI®), POTASSIUM SORBATE, ALLANTOIN, PARFUM (FRAGRANCE), DIOCTYL SODIUM SULFOSUCCINATE, SILVER CHLORIDE, TITANIUM DIOXIDE

* The ingredient declarations used are in compliance with the International Nomenclature Cosmetic Ingredients (INCI).

Efficacy Tests

The greater ease of skin cleansing has been demonstrated in practical application tests specifically designed for this purpose (Research & Development, Evonik Stockhausen GmbH, Krefeld), and in field studies as well.

Skin Compatibility Tests

STOKO PRELABO® has proved to have good skin compatibility properties in human-experimental tests and in practical use. A skin compatibility expert report prepared by the Department of Dermatology, Clinic Krefeld, Germany, is available.

Statutory Regulations

STOKO PRELABO® is governed by the Ordinance Regulating Cosmetics, the Cosmetic Directives of the EC, and is not subject to the Chemicals Act or the Ordinance Regulating Hazardous Substances.

Safety Data Sheet

An EC safety data sheet containing additional product information is available for STOKO PRELABO®. This can be downloaded from www.stoko.com.

Quality Assurance

All products of the STOKO® Programme meet the bacterial purity standards as they apply to medicines for external use (as defined by PhEur):

< 100 reproducible germs/g of product.

Verification tests in this respect are a regular feature of our quality assurance procedures.

Shelf Life

STOKO PRELABO® can be stored in an unopened container at room temperature for at least 30 months. Shelf life after opening: see indication on packaging.

First Aid

In the event of accidental eye contact with the product, rinse out using water (eye douche, eye irrigation bottle). Consult a doctor if any burning sensation persists.

Additional information

Expert reports and bibliographies are available upon application.

Packaging Sizes

100 ml tube
1000 ml soft bottle
(for all STOKO VARIO® dispensers)

Please note that for reasons of trademark protection, only soft bottles from the STOKO® Programme may be used in these dispensers.
