

# TANGERINE SOAP

## Medium to Heavy Duty Hand Cleansing Mousse

TANGERINE SOAP, for **medium to heavy duty** hand contamination, is a natural hand cleaner that is non-alkaline and **solvent-free**. It thus eliminates the potential skin problems liable to be experienced by those who are hypersensitive to the ingredients used in solvent-based heavy duty hand cleaning gels.

TANGERINE SOAP is pleasant to use, leaving no unpleasant paraffinic smells on the hands to mar the enjoyment of food at break times.

TANGERINE SOAP is biodegradable, so does not pollute the environment

TANGERINE SOAP contains a modern plastic granulate, which will not clog drains.

TANGERINE SOAP cleans deep into the pores without irritating the skin. It creates a rich, satisfying lather and rinses freely.

TANGERINE SOAP is an opaque orange-coloured pumpable gel which can be used in appropriate dispensers, if required. Please ask about our range of inexpensive dispensers for use with this product.

TANGERINE SOAP removes grease, oil and general grime quickly and easily without damaging the skin. A small amount should be rubbed into the hands and water added. Wash vigorously, then rinse and dry thoroughly.

**COSHH Data:** An EC safety data sheet (MSDS) providing additional information is available on request.

**Packaging Sizes:**

- 12 x 500ml free-standing pump bottles
- 15 litre tub
- 4 x 5 litre plastic jerry cans.

**Dispensers:**

A range of dispensers is available for use with this product. Please ask.

**Area of Application:**

TANGERINE SOAP is a creamy hand cleansing gel with micrograins for medium soilings such as oil, fats, grease, bitumen and rubber. It is especially suitable for use in garages, workshops and the metal industry.
